**DETAILED ACTION**

***Status of the Claims***

1. This action is in response to the preliminary amendment filed on September 13, 2004. Claims 1-56 are pending.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to generation of certificates, classified in class 713, subclass 155.
- II. Claims 16-27, drawn to maintaining log records, classified in class 714, subclass 39.
- III. Claims 28-45, drawn to data access by the user, classified in class 707, subclass 1.
- IV. Claims 46-54, drawn to electronic shopping, classified in class 705, subclass 26.
- V. Claims 55-56, drawn to verifying data compliant, classified in class 717, subclass 126.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as generation of certificate; invention II has

separate utility such as maintaining log records; invention III has separate utility such as data access by the user; invention IV has separate utility such as electronic shopping; invention V has separate utility such as verifying data compliant. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).**

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
